Speed (max)	48 knots
Range	TBC
Fuel Capacity	380 liters - 100 gal.
Water Capacity	54 Liters - 14 gal.
Seating Capacity	12 passengers

IGUANA AMPHIBIOUS BOATS

AMPHIBIOUS ADVANTAGES

With an Iguana, you can enjoy the many advantages of an amphibious boat:

- EASY TO LAUNCH
- SAFER TO EMBARK
- BEACH LANDER
- SIMPLE TO STORE
- EASY TO MAINTAIN
- ECONOMICAL

AMPHIBIOUS USES

Amphibious boats are useful in many different cases. If you are a **waterfront property owner** or if you are living on a **private island**, amphibious boats offer you the freedom of a boat without the constraints of its infrastructure. Iguanas are also perfect **yacht tenders** to access isolated beaches and to transport guests in comfort and style.

IGUANA TECHNOLOGY

IGUANA MOBILITY SYSTEM

The time proven amphibious mobility system is elegantly integrated into the hull using coated marine-grade aluminum and Kevlar belt reinforcement.

Fitted with the very latest in electric technology and tested for over 10,000 hours, **the reliability of the IMS is truly unbelievable.** The landing gear deploys and locks into place in 8 seconds. The tracks fit perfectly into the hull with no sacrifice to the performance of the boat.

PERFORMANCE AT SEA

The hull and deck are produced using epoxy laminates, foam core and appropriate carbon fiber reinforcement to deliver **a stiff and lightweight structure.**

With the clever use of lightweight materials, an Iguana is no heavier than a standard boat of the same size. These advanced building techniques also allow **speeds up to 48 knots** to be reached. First designed as a seaworthy boat, the land drive is cleverly integrated with no loss to the vessels performance.

HIGH-TECH FUNCTIONALITIES

The whole boat can be operated through a single digital interface which displays 3 main buttons to most of the boat. **Everything in the boat is connected and can be operated remotely through 4G.** We offer **electric drive** as an alternative to petrol.

PREMIUM SERVICE

The materials used, their sizing and the assembly methods used give the Iguanas **an incredible robustness**.

The **10-year review** of delivered boats has identified the main wear areas that need to be monitored.

Iguana Yachts provides a premium service with a 7/7 assistance line, an extended guarantee, remote diagnostic through 4G, mobile engineers and annual maintenance.

IGUANA X FISHER
